

# Birthday Blooms

**Crafter level:** Easy

## What you'll need

- "Birthday Blooms" printable
- 1 sheet card stock
- Up to 7 cake pop sticks (fewer for smaller cakes)
- Craft glue
- Craft knife and cutting mat or scissors

## How to make it

1. Print out the page onto card stock.
2. Cut out pieces carefully with the craft knife or scissors.  
*Tip: For the flower with stamens, only cut around the tops of the stamens so they don't tear.*
3. Glue each flower to the top of each cake pop stick. When dry, glue the leaves onto a few of the sticks. Let dry.
4. Insert the cake pop sticks into the cake.

# Birthday Blooms Printable

Print on card stock for best results.
