

My Fizzy Valentine

12 strawberries
2 ice-cube trays
Clear soda

Cut each strawberry in half, and then cut a V-shaped notch in the top of each half to create a heart shape. Place a strawberry half into each well of the ice-cube trays, and then add clear soda until the strawberries are covered. Freeze trays. To serve, add the ice cubes to glasses of clear soda or pink lemonade, or add cubes to a bowl of punch.

Makes 24 ice cubes
