

Pennant Play

Here are instructions and materials you'll need to make 10 pennants.

Crafter level: Easy

What you'll need

- Printout of pennant template
- 4 felt squares in primary team color
- 1 felt square in secondary team color
- Rotary cutter, ruler and mat (or scissors)
- Pins
- Hot glue gun and glue sticks
- 10 iron-on letters
- Iron and press cloth
- 5, ¼-in. round dowels, cut in half

How to make it

1. Use pennant template to cut 10 pennants from the primary color felt squares. Set aside the felt scraps for Step 3.
2. For the secondary color felt, cut ½-inch-wide strips from the long edge of the felt. You should be able to get 2 pennant stripes from each strip, so cut 5 strips.
3. Now cut ¼-inch-wide strips from both colors of felt for the tassel decorations.
4. Cut the ¼-inch-wide strips into 2- to 3-inch lengths. Snip the ends at an angle. Then fold 1 of each color in half and pin to the top, left corner of each pennant.
5. Place 1 of the secondary color ½-inch strips on to the felt pennant along the short edge, covering the fold of the ¼-inch tassel strips. Hot glue in place to secure, making sure you also attach the tassel decoration with your bead of glue. Once attached, snip the ½-inch strip ends at a slight angle to match the angle of the pennant. Add the rest of the strips to the pennants in the same manner. See Diagram 1 for placement.
6. Place an iron-on letter on each pennant and iron the letters in place using a press cloth to avoid scorching the felt.
7. Hot glue the back of each pennant to a dowel half. Place your pennants in containers within easy reach of joyful fans.
