

Friendship Pendants

Bring all your friends over for this easy project that can be made in just a few minutes.

What you'll need

- Large safety pins, 1 each per friend, per necklace
- Elastic cord or ball chain for necklaces, 1 each per friend
- Seed beads in a variety of colors, sizes

How to make it

1. Have each friend add seed beads to a safety pin in the design and colors of her choice. Now each friend should repeat that same pattern and color combination for the remaining safety pins. So, if you have 5 friends, each friend should make 5 safety pins—1 to keep and 4 to share.
2. Share your safety pins with each other, so each friend has 1 safety pin from each person.
3. Thread your safety pins in whatever order you want onto your cord or ball chain. Now you can wear it!
