

Playful Pup

Crafter level: Easy

Time needed: 30 minutes

What you'll need

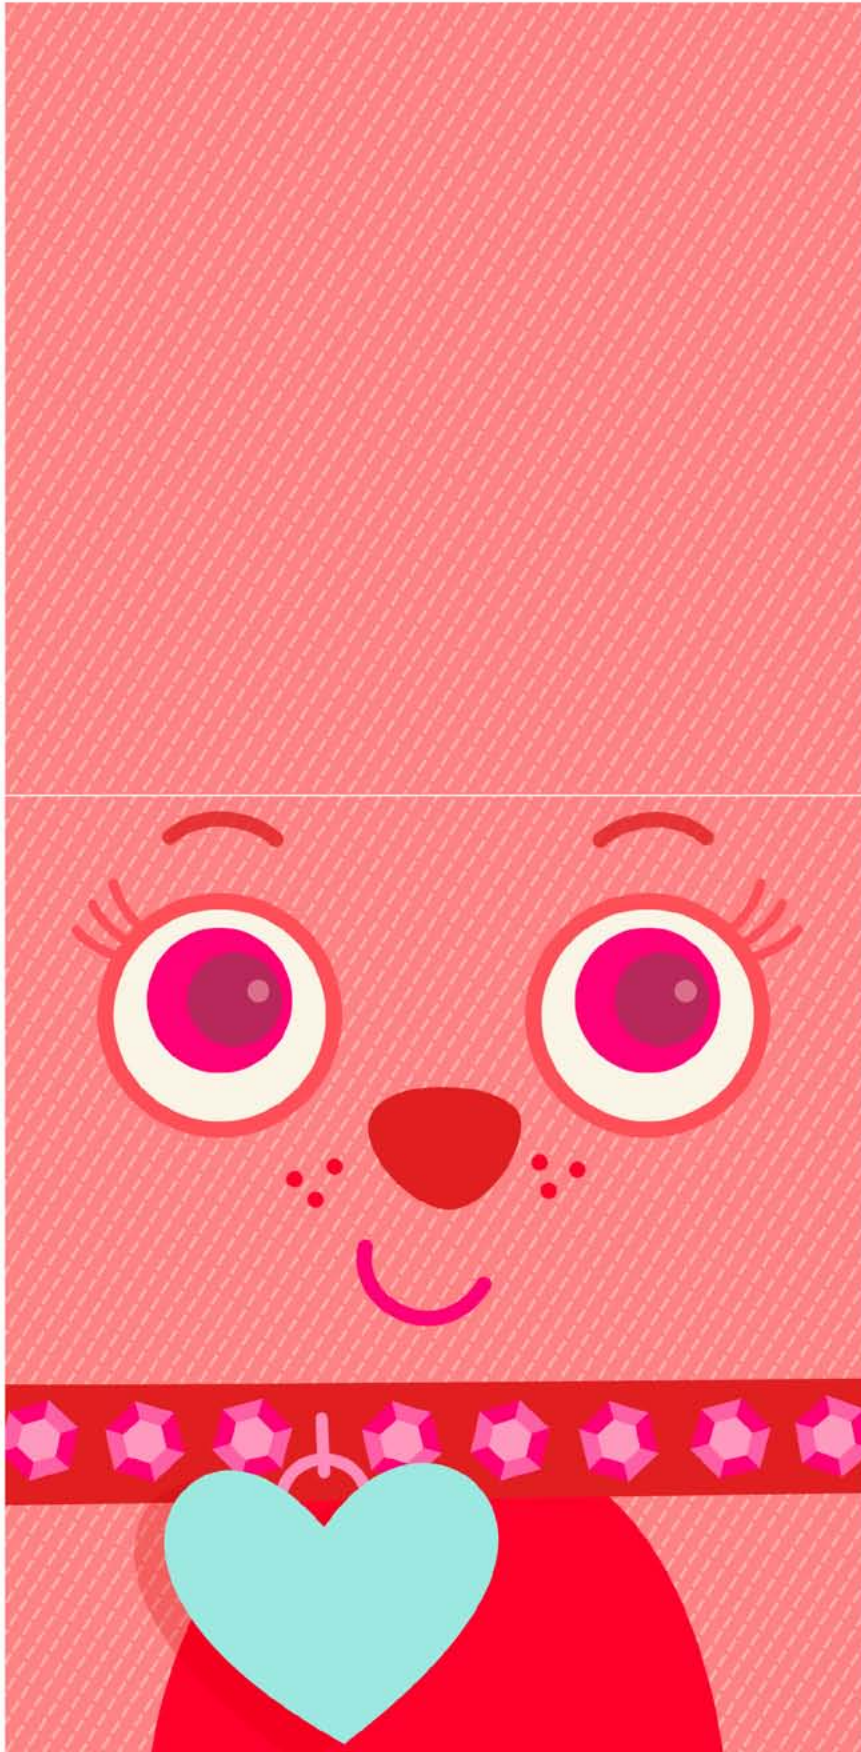

- Empty pop-up tissue box
- Printouts of playful pup templates on card stock (for best results)
- Scissors or craft knife
- White glue

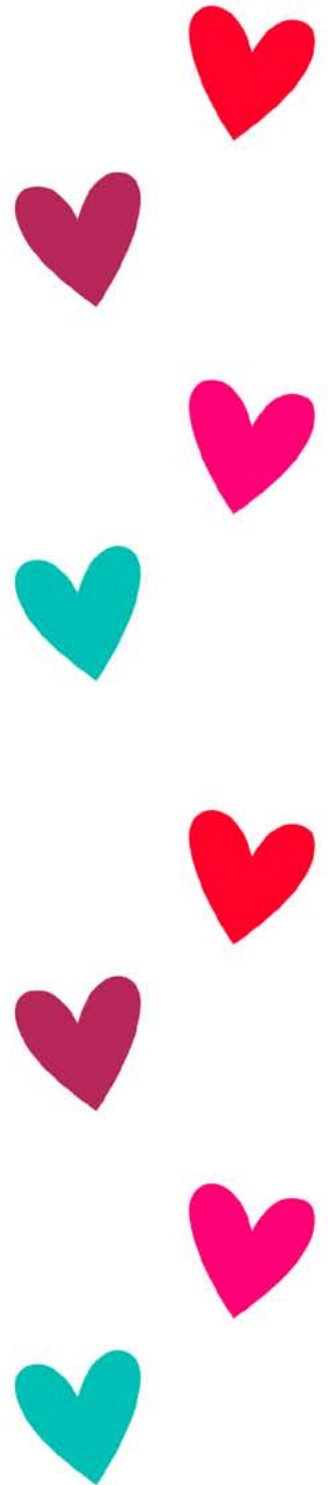

How to make it

1. Cut out the puppy's front, back and side panels and glue them, one at a time, to the tissue box. Add your name to the puppy's collar tag on the front panel with a marker or pen (optional).
2. For the top panel, decide the size and shape you want to cut for your opening. Make sure the opening is big enough to fit valentines with candy attached and that it lines up with the opening on the tissue box. Cut out the opening, and then glue the top panel to the top of the box.
3. Cut out the 4 pup's ears and glue them together, front to back. Fold out the flaps and attach them to the top panel of the box near the edges of the box, so they hang down.
4. Cut out the hearts on the printouts or use your own stickers to add some extra decoration (optional).
