

Whoopie Pie Hearts

1 box cake mix (we used white cake mix tinted with red food coloring)
1 box instant pudding (we used vanilla)
½ cup butter, softened
1 cup water
Food coloring (optional)
Tub of frosting

Preheat oven to 350°F. Beat all ingredients with a mixer until well blended. Pour a cup of batter into a plastic storage bag with the corner snipped off (this will serve as a piping bag). Squeeze excess air out of the bag, and pipe cookies into heart shapes on a cookie sheet covered with parchment paper. Bake 15 to 20 minutes. Cool on baking rack.

To fill the cookies, whip a container of frosting with a hand mixer until fluffy and light. Spread the frosting on half of the cooled cookies and top with the other half.
