# In a Word...Yippee! Cake Topper

**Crafter level:** Easy

## What you'll need

- Banner template
- Scissors
- 1 sheet scrapbook paper
- Mini hole punch
- Color printout of your word in the font and color of your choice
- 1 yd. of 1/8-in.-wide ribbon
- 2 striped paper straws
- Craft glue

## How to make it

1. Cut banner templates from scrapbook paper, enough to fit every letter from your word plus punctuation, if necessary.
2. Cut out the letters into small squares and glue letters to the scrapbook paper banners.
3. Hole punch the left and right corners of each banner.
4. Thread the letters onto a 24-inch length of red ribbon, leaving a few inches free at both ends of the ribbon.
5. Glue the ends of the ribbon to the top inch of each straw. Cut 2 more 6-inch pieces of ribbon and tie a bow around the glued area of each straw.
6. Insert straws into the cake.
