# Blissful Bunting

**Crafter level:** Easy

## What you'll need

- Bunting printable or scrapbook paper in the colors of your choice
- Craft glue
- Circle punch (we used a 1-in. circle)
- 2 long swizzle sticks or rock candy sticks, painted gold
- Clear fishing line or white thread

## How to make it

1. Use the circle punch to cut out the circles from the printable or scrapbook paper. Cut about 25 circles.
2. Cut 2 pieces of thread, 1 about 24 inches long, and the other about 27 inches long.
3. Starting at the center of the 24-inch thread, pinch and glue the circles in half over the thread, spacing them out about  $\frac{1}{4}$ -inch apart from each other. Attach 12 circles to the top thread. Repeat the process for the bottom, 27-inch thread, using 13 circles. Let dry.
4. Tie the ends of the threads to the swizzle sticks in a knot, just under the ball tips. Add a drop of glue to the knots, let dry, and then snip the thread ends close to the knots.
5. Clean and dry the ends of the swizzle sticks. Insert both sticks into your cake angled slightly outward, to best show off the bunting.
