Halloween Can Wrappers

Crafter level: Easy
Time needed: 5 minutes each

What you'll need

To make three wrapped cans (one of each):

- Color printer and 3 sheets white paper
- Tape, glue stick or white glue
- Scissors or paper cutter
- Ruler and pencil
- 3 clean and empty cans (with lids removed and any rough edges filed down)

How to make it

1. Print out all three wrappers on white paper with your color printer.

2. Measure the height of one can and cut one wrapper to match, making sure you cut any excess from both sides of the wrapper to keep the faces centered.

3. Place wrapper around can and glue ends to secure. Let dry.

4. Repeat steps 2 and 3 with remaining wrappers and cans.

5. Fill with candy or other Halloween goodies and give to friends, neighbors or a teacher for a Halloween treat.

Tip: To wrap candy bars instead of cans, just find some king-size or regular-size candy bars and trim the wrappers to fit. Use tape on the back to secure.
