

Holiday Ornaments

Crafter Level: Easy

Time Needed: 30 minutes

What you'll need

- Holiday cards
- Ruler
- Scissors
- Small hole punch
- Brads
- Ribbon or string

How to make it

1. Using the template below, cut your cards into 1-by-6-inch strips.
Tip: Cut strips from the blank inside of the card and let your kids write a message to add to the ornaments—after all, their handwriting is the cutest!
2. After all the strips have been cut, punch a hole in the center on both ends of each strip.
3. Layer 8 strips and insert a brad through the top hole of all 8 strips. Split the brad and press down firmly to keep the strips in place. Then add a second brad through the holes on the other end, split the brad and press down firmly. Now that your ornament is securely put together, take it and bend between your index finger and thumb. Then you are ready to start fanning out the strips evenly, and watch as your perfectly round ornament comes to life.
4. Add a ribbon or string to the top for hanging on the tree.
