

# Got Heart. Got Love.

**Crafter level:** Easy

## *What you'll need*

- “Heart & Love” printable
- 1 sheet card stock
- 1/8-in. round dowel, painted white
- Craft glue
- Craft knife and cutting mat

## *How to make it*

1. Print out the heart shape and “Love” onto card stock and cut out both pieces carefully with the craft knife.
2. Crease the heart in half (optional) and glue to the top of the dowel.
3. Glue the “Love” to the dowel about 1/2 inch down from the point of the heart. (We glued it to the dowel at the beginning of the letter “v”.)
4. Cut the dowel to the length you want for your cake. Clean the end of the dowel carefully, so as not to get the paper wet, before inserting the dowel into the center of the cake.
